EDUCATION

2022-2026

Sree Chaitanya Institute of Technological Sciences

B.Tech, Computer Science & Engineering

Percentage: 76.7%

2020-2022

Telangana State Board

Senior Secondary (XII)

Percentage: 95.1%

2019-2020

Telangana State Board

Secondary (X)

Percentage: 100.00%

SKILLS

Languages:

Python, C, JavaScript

Web & Native:

HTML, CSS, React Native, React

Design & Tools:

Figma, VS Code, Google Stitch

Soft Skills:

Problem Solving, Project Management

OBJECTIVE

Motivated and detail-oriented graduate seeking to leverage my technical skills in design and development to contribute to innovative projects. Committed to continuous learning, collaborative problem-solving, and delivering high-quality, user-centric solutions in a fast-paced professional environment.

PROJECTS

SMART STUDY

Built an AI-powered React Native app that transforms study materials into notes, flashcards, and quizzes. Implemented authentication, local persistence, and AI fallbacks for seamless Android performance.

PROJECT CYBER SPACE

A metaverse platform that redefines corporate training through an immersive virtual headquarters. Enables collaborative, interactive learning with modules, workshops, and real-time discussions.

INTELLIGENT TASK MANAGER

A smart productivity app featuring a modern UI that uses NLP to automatically extract, categorize, and schedule tasks from raw text. Includes interactive calendars and smart reminders for a seamless planning experience.

CARTNEST

Developed a full-stack collaborative shopping platform using React, Node.js, and Socket.io. Implemented synchronized live carts, shared budgets, and server-authoritative queues to guarantee consistent multi-user state and prevent race conditions.

THE OPERATION FINAL DAWN

Built a survival adventure implementing intelligent enemy pathfinding and a time-based inventory interface. Focused heavily on system optimization and environmental design to ensure a seamless experience in a hostile world.

CERTIFICATIONS & HACKATHONS

Certifications:

Certified UI/UX Designer from Beep, Naukri Campus Young Turks 2025, Data Analytics and Python Essentials (Cisco Networking Academy).

Hackathons:

Amazon AWS Game Dev challenge, Amazon ML Hackathon, Flipkart Grid 6.0, Tata Crucible Campus Quiz.
